DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hunter, U. S. Patent 6,138,832 in view of Williams, U. S. Patent 4,557,971. Hunter teaches a packing kit comprising a plurality of different size cartons or boxes 20, 24, 26, and 28; rolls of tape 16, packing paper 18, and a marker 14. Hunter does not teach the tape having pre-printed indicia identifying rooms of a house such as the term "bedroom" and "bathroom". Williams teaches self-adhereable tape comprising a pre-printed message such as "Handle with Care" or "Fragile" such that the tape serves not only to seal a carton, but also to communicate a message. Williams also teaches indicia related to the address or destination of the carton. It would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the tape of the packing kit taught by Hunter with pre-printed message as taught by Williams to provide a means to convey the destination or room contents of the carton.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Specialty tape, www.yellowtruck.com/resources/suppliesOnline.asp May 1, 2002 is cited to show room
